

Middleton Ma. – Extra Innings and ProMirror are pleased to announce its partnership created to offer baseball and softball players of all ages and skill level the most effective video training technology available today.

After extensive market research Extra Innings franchise headquarters in Middleton Massachusetts chose ProMirror to be its exclusive provider for video training technology.

Established in 1996, Extra Innings is recognized as the premiere indoor baseball and softball training center. Extra Innings' state of the art facilities are dedicated to covering all the bases and fulfilling the needs of players of all ages and abilities.

“We looked at every type of video training system the market had to offer before we made our choice. We needed something that all our instructors could use with little or no training and something we could use live during lessons and clinics and in the cages. ProMirror was the only system that offered these capabilities.”

Joe Luis
Extra Innings Founder/Owner

“Prior to forming our partnership with Extra Innings, we spent significant time and effort monitoring how Extra Innings lessons and clinics are taught. The feedback we received from this effort confirmed our beliefs that top instruction combined with powerful simple to use video analysis is a winning combination.”

Ralph Lazzaro
ProMirror, Inc.

“The lesson and clinics schedule we maintain is very aggressive. It requires both students and instructors full concentration. Since we've been using ProMirror the attitude, interest level and most of all effectiveness of both instructors and students has gone way up. Students are improving faster and having more fun doing it.”

Pete Feeley
Extra Innings Manager/Instructor

In addition to Extra Innings, ProMirror is currently used by several MLB organization including the New York Mets and Arizona Diamonadbacks.
